Family background

- Mother is marine scientist and her father is a career diplomat working for the IOA who met studying at university, and both had an interest in climate change, they travelled all over the world, got married in Rarotonga (and got tour from crazy hippy family) and settled in Esperance when mother decided to accept position at university of Western Australia research centre, and father kept going on diplomatic missions to Canberra, three years later they had twins.

Brief History of life

- Born in Esperance, Western Australia, always loved to surf (teen beach?), wanted to become a marine biologist like her mother but didn't get any scholarships and went to the military for a tuition and found out she liked the military lifestyle and eventually worked her way up to the stargate program.

Five keywords associated with them

1. Self-conscious (about her smarts)
2. Proactive
3. Intrepid
4. Inspiring
5. Confidant (in her abilities)
